

At TSHIRTS ONLY we use Adobe CS6 graphics programs.

Please provide all graphic files as either Vector EPS or AI files, with all fonts converted to outlines or the TTF (true type font) file supplied.

Placed images (photographs etc) need to be embedded or supplied as separate files.

If your artwork consists of photos, and scanned images please save as an Adobe Photoshop PSD file, @300dpi to actual size (or larger) with a transparent background.

PDF, BMP, TIFF or JPG files are sometimes possible to use depending on quality. They can only be accepted for one colour print jobs, full colour print jobs or embroidery. Minimum resolution is 300 dpi and must be saved at least twice the print size.

ARTWORK

Basic artwork layouts and changes are provided free of charge, more complex design and redraw jobs are charged at our standard artwork fee of \$40 per hour. A typical redraw of a logo will normally cost between \$30 and \$50.
